

PRODUCT INFORMATION SHEET

Name MUFFINS WOOD 03B

Type pendent lamp

ID PC851

Description

The timeless Muffins collection represents an extraordinary lighting experience. Since its market debut, it has taken on an iconic status and become a symbol of the BROKIS brand. The sublimity of the design lies in the masterful combination of delicately contoured glass and solid wood. The lights, featuring a blowing glass shade set in a handcrafted wood base together with a naked filament bulb, breathe new life into any space and elicit a festive ambience. The collection offers multiple shape and size variants as well as a broad palette of glass colours and woods. MUFFINS 10-YEAR ANNIVERSARY To celebrate ten years since the introduction of Muffins, a special anniversary edition was created in 2020. For the special edition MUFFINS 10-YEAR ANNIVERSARY, the brand has chosen singular materials, combining wood in high gloss with marble and different colours of glass to underline the exceptional design of this timeless collection. Each component of these handmade lights is given the utmost attention, and great care is taken in the selection of high-quality and environmentally friendly materials. Rare satinated rosso francia marble, which was used in the eighteenth century in the construction of churches and important buildings, provides an interesting backdrop with elegant arabesque and white and grey veins. Satinated grigio talami marble from Southern Italy, used for more than a thousand years in palaces and churches, stands out with its calcite colouration and varying dark tones. Another option is solid wood, which features a high-gloss finish in either cheeky raspberry or conservative grey. In combination with precision multilayer glass crafted thanks to centuries of tradition and the experience of master glassblowers, these sublime materials are a fitting complement to the essence of the special edition. The special edition applies to Muffins 01 (PC849) and Muffins 02 (PC850) only.

Technical description

The craftsmanship applied in production follows in the centuries-old tradition and experience of master glassmakers. The precision crafting of hand-blown glass instills distinctive, enduring character and outstanding quality in all Brokis products. The glass shades are formed from multiple layers of molten glass, each of which is scrutinized by the master glassmaker prior to being blown into the mold. Up to 70% of the resulting quality is achieved in this stage of production. No less attention to detail is paid in handcrafting the wooden elements of the light. Each piece is individually processed by the artisan in a series of strictly observed production stages. We take special care in selecting quality fine wood and ecologically friendly materials to treat it with.

Glass Colour

transparent glass	A	CGC23
smoke grey - transparent glass	A	CGC516
