

Drink H3

Design
Dante Donegani,
Giovanni Lauda

Year
2008

Description

Drink is a family of lamps that distinguishes itself because of its simple and iconic design; it brings to mind a wine cup filled with light. The surfaces are characterised by their glossy lacquer, which are the typical colours, and mat and satinfinished textures of the world of metals. Thanks to its original and yet discreet shape, and to its broad variety of dimensions and colours Drink is perfect for any type of environment, from classic to modern interiors, to work environments. The floor lamps are fitted with a lightcontrol, integrated in the stem; they come in two different dimensions, and function with halogen or fluorescent light bulbs

Materials

Shade in steel, chromed and varnished inside, or in aluminium, with a polished outside finish and a satin inside finish; injection moulded polycarbonate internal support rings and glass reinforced injection moulded polycarbonate chromed ceiling rose.

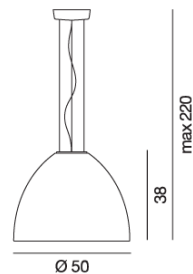

Certifications

CE  IP20
