

ARA WALL

Ilaria Marelli

Family of floor and wall lamps, with fluorescent, LED and halogen sources depending on the version.

It is composed by two elements in extruded aluminium: depending on versions, structure is painted in white, anthracite and champagne, while the rotating illuminated structure can be glossy anodized or painted matte white.

The LED or halogen uplight source is integrated in the upper part of the structure and it creates a widespread light, while a fluorescent or LED source is integrated in the main structure for a widespread and adjustable light.

The power supply is integrated for both versions while the dimmer is on the cable in the LED + LED version and integrated in the DTW version.

69 LED

LAMPING

Source	LED board
Total power	2x16W
Emission	double
Switching	dimnable, DALI/push, mono switch
Tension	230V
Color temperature	3000K
Luminous flux	3600lm (source luminous flux)
Typ CRI	85
Energy class	A+
IP class	40
Materials	aluminium + PMMA
Notes	orientable, anthracite RAL7016, champagne RAL9007
Net lamp weight	3,5 kg

Codes
