2 installation

to install the plasterkit.
see installation manual KR8200001623.

fixed by turning it on the LED, underneath the bajonet ring

IMPORTANT: mind the orientation of the heatsink!
the shortest side of the heatsink is on the side of the aplis with the longest rod

install the filterholder again by first aligning A and B

3 installation

bend the springs to
remove the filterholder.

insert the reflector-LED assembly in the Aplis
the border of the reflector has to snap on the springs

Please make sure that
main voltage is disconnected
before proceeding!

install the correct gear with strain relief
on the hollow ceiling

important: always check the polarity!!
+ = red wire - = black wire

male connector is already wired
as follows

make sure the female connector
is wired in the same way

2 = black
1 = red
